WSU Class Project: User Feedback Survey

I am taking a class in Web Design and Development at Weber State University. Our assignment is to ask for user feedback on my Sunset Equestrian Center website rewrite project. I would appreciate you filling out this brief survey to aid me in class. All your information will be confidential and only used for my class project.

(color, fonts, typography, layout/composition). The overall concept/theme/unified look of the website is effective.

	1	2	3	4	5	
1 (low)	○	○	○	○	◉	5 (high)

Comments (optional)

Great job! It was very user-friendly and nice to look at. I would like to see something more about the trainers and their contact information as well as about the owners to make it a little more personal. I also noticed there weren't any links to social media (e.g. Facebook). Maybe those aren't even an option in this case.

Please provide comments for these four questions:

6. Do you feel this project is appropriate to include in the student's portfolio considering skill-level demonstrated?

Yes

7. Did you experience any technical difficulties as you navigated through the website or displayed the project?

No

8. What are the main strengths of the project?

Easy to navigate, beautiful look. Had most of all the information I would need.

9. What are the main things that could be improved with the project?

Add information on the trainers and their contact information.

Yes
_____

7. Did you experience any technical difficulties as you navigated through the website or displayed the project?

No
_____

8. What are the main strengths of the project?

Clear direction, high level of visual information
_____

9. What are the main things that could be improved with the project?

Stand alone page design seems off compared to the homepage. On the homepage make the images for the standalone pages clickable. Get higher res images for the hero if possible. Consider accessibility impacts of highly visual data
